

Overall Self-Assessment Workbook Scorecard

Use this scorecard to indicate where you approximate your coalition/organization to be in each category sub-section on a scale of 1 to 5. Place the corresponding number in the appropriate box. If the category does not apply, choose N/A. In the last column, identify where you hope to be in 12 months for each section.

This scorecard will help you see overall trends within each section as well as overall results for discussion. For sections that have a majority of categories in the 'basic' to 'moderate' rankings, please consider reviewing the resources provided for each section.
