

Alliance to End Hunger's vision is to end hunger in the United States and around the world in this generation. To achieve this, the Alliance unites diverse sectors to address today's hunger and malnutrition needs and to solve the root causes of hunger at home and abroad. We are a diverse coalition of over 100 [members](#) including corporations, non-profits, universities, individuals, agriculture organizations, healthcare providers, foundations and faith-based organizations – all working together in the fight against hunger and malnutrition. In the United States, 33.8 million people, including 9.3 million children are impacted by food insecurity.
